March 26, 1904. Ch'm. Hopkins Co. Rep. Com., CHAS. COWELL,

Say, Mister!

Do your clothes fit you? Do you feel comfortable in them? Are they stylish looking? Look like tailor made?

Does your coat fit comfortably under the arms? Does the coat collar keep its place just a little below the top of the linen collar?

Are the shoulders well padded? Is the front properly stiffened?

Are you satisfied you buy them at the bottom price? Do you know no other man buys his suit for less money?

TE buy our CUSTOM CLOTHING from the LARGEST Manufacturer in the world. Our Custom Suits are the BEST FIT-TING we have handled. In Our Custom Suits the tailoring is unsurpassed. We have but ONE PRICE and that is the BOTTOM. We guarantee satisfaction.

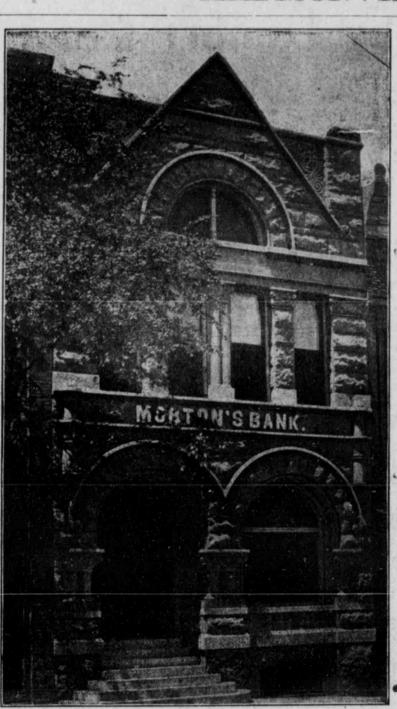

We are dead anxious to have you advertise our clothing by wearing it.

NEW COAL FIELD.

Pennsylvania Company to Develop Coal Lands Around Slaughtersville.

It is stated on pretty good authority that the town of Slaughtersville will soon become a mining center.

Some time ago Eastern parties went to Slaughtersville and took options on most all the mineral privileges through that section, and a report says that a quiet game has been played in the matter and that in the past few days it has developed that a company composed of Pennsylvania capitalists have rushed in upon the town, deposited money in the bank there, having machinery? shipped in and are taking up the options and moving in a business like way, and coal mines will soon be opened up there .-Graphic.

The Louisville Spar, Lead and Zinc company, organized early in January with a capital stock of \$25,000, has closed a contract with D. C. Roberts, of Marion, Crittenden county, to mine from its fields, located there 400 tons of fluorspar a month, which has been contracted for by Pittsburg and Pennsylvania companies to be used in fluxing fron ore. The ready sale which the product has found will cause the company to increase its capital stock and begin aggressive operations as soon as possible. The stockholders in Louisville are L. M. Rice, R. C. Watkins, John Rice and E. A. Hall. Mr. Watkins formerly lived in Paducah.

Frankfort, Ky., April 1 .- The following companies filed incorporation articles with the Secretary of State today:

The Winona Coal and Coke Company, of Bell county, capital stock \$50,000; Four Mile Coke and Coal Company, also of Bell county, amending, increasing from \$12,000 to \$25,000.

Foreman Toombs and crew last Friday and Saturday widened the base of the Hecla tipple fourteen feet and added large batter braces which entirely took up all lateral motion of the structure and causes the machinery to work more satisfactory.

The St. Bernard carpenters will this week erect a new stairway to lead to the official department.

A new motor house is being constructed at Hecla mine under the masterly touches of Messrs. Peyton, Lester and Stokes which add greatly to the local scenery at that place.

Some improvements on the Arnold fan will be made in a few days which will materially aid the ventilation of that mine.

The new scale that was installed at No. 11 mine last week is a Jim Dandy and works to perfection and weigher Feiler is happy.

The tonnage of the coal output of the world is a matter of popular interest, and the question is often raised. Statistics for the year 1903 just made public shows the world's total output to have been 941,897,112 tons. The output of the United States, Great Britain and Germany the three leading coal producing countries of the world for 1903 was United States, 354,037,380 tons; Great Britain, 257,961,760 tons and Germany, 165,826,496 tons.-Manufacturers' Record.

The officers of the Buffalo Creek Coal Mining Company, at Daniel Boone, Ky., have been changed by the retirement of Mr. T. R. Troendle from the office of Vice-President and General Manager, and the election of Mr. R. E. Palmer in his place. Mr. Palmer will have active charge of the affairs of the company. He was elected to the position by the votes of the majority of the stockholders, consisting of C. W. Schulte, James Paine, James W. Palmer, A. S. Buchanan, R. E. Palmer and Sterling Pierson. all of whom are residents of Memphis, Tenn.

The work on the switch leading to the mines of the Rose Creek Coal Company near Nebo, was commenced this week and the company expects to make its first shipment at an early date.
